## Anthropology for Transfer 2017-18

### Associate in Arts Degree in Anthropology for Transfer

The study of Anthropology is the study of humanity— all aspects of humanity—and as such covers a hugely diverse range of seemingly disparate topics. Anthropologists look not just at one particular society, culture or religion, but rather they look at how seemingly divergent cultures, pasts, individuals and social trends are related to one another and to all of humankind as a whole. With this knowledge, anthropologists believe it is possible for us to gain a better understanding of who we are, where we have come from, and where we may be heading in the future.

The Associate in Arts in Anthropology for Transfer degree (AA-T in Anthropology) will provide the foundational knowledge in Anthropology to students who want to earn a Baccalaureate Degree in Anthropology. This degree is in compliance with the Student Transfer Achievement Reform Act {Senate Bill 1440, now codified in California Education Code sections 66746-66749} and guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a newly established variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student’s community college area of emphasis. Visit [www.sb1440.org](http://www.sb1440.org) for the latest information about these degrees.

NOTE: Program first offered Summer 2014.
