Classes on High School Campuses

Distance Education

Online courses provide excellent opportunities for students to pursue their educational goals with time and place flexibility. These courses are offered over the Internet and should not require on-campus attendance. Online courses comprise equivalent content and satisfy the same academic requirements as their on-campus counterparts.

Online Student Success

Online courses are rigorous and require a clear commitment. You will need to be motivated, well-organized, and on-task to succeed in this mode of learning.

Check the online course descriptions at www.sbccc.edu/distanceeducation/onlinecourses.php for information about making initial contact with the instructor. We strongly encourage you to take the Distance Education Orientation to determine whether you are ready to take an online course and to help you prepare for distance learning. You can find this at www.sbccc.edu/distanceeducation/orientation_distance_ed.php.

On-Campus Attendance

Although fully online courses do not require specific time-and-place commitments, some partially-online (hybrid) courses require varying levels of on-campus attendance, as determined by the instructor:

- Fully online courses require no on-campus meetings or exams but may require students to take proctored exams. These can be accomplished via virtual proctoring or approved in-person arrangements with the instructor.
- Partially online courses may require attendance at on-campus orientations and exams, or have regular meeting times.

Check the online course descriptions at www.sbccc.edu/distanceeducation/onlinecourses.php for information on each section's attendance requirements.

State Authorization of Distance Education Outside of California

If you are a Santa Barbara City College student (or prospective student) who will not reside in California while enrolled in Distance Education courses at Santa Barbara City College, be aware of the following information:

Santa Barbara City College delivers online education programs and courses throughout the United States and internationally, and its online offerings continue

to expand. All programs have been approved by the California Community Colleges Chancellor's Office.

Many states have prescribed an "authorization" process for out-of-state institutions delivering online programs to its state residents. States are attempting through these processes to ensure quality postsecondary education, to preserve the integrity of an academic degree and to instill greater consumer protection for their student citizens.

Authorization (sometimes referred to as "registration," "licensure," "approval," etc.) indicates that certain minimum standards have been met by the institution under the laws and regulations of that state. Authorization does not constitute an endorsement of any institution, course or degree program. Credits earned at an institution do not necessarily transfer to all other institutions.

Santa Barbara City College has taken steps to protect its students and operations nationwide. The institution has been granted authorizations, exemptions and waivers from many states. In other states, Santa Barbara City College can operate without such authorization because the state's laws do not pertain to a public institution, to an accredited institution or to the college's activities in that state. We advise students residing in states in which Santa Barbara City College is not approved to offer distance education not to enroll in Distance Education classes at Santa Barbara City College. See www.sbccc.edu/distanceeducation/stateauthorization.php for a complete list of states in which Santa Barbara City College is approved to offer Distance Education.
