Assistive Technologies Specialist (SS-270A)

Course Descriptions

DSPS 066 — Math Strategies

(2)

Hours: 32-36 lecture

Designed for students with disabilities who are enrolled in mainstream college math classes and whose disabilities result in educational limitations in the area of math. Students learn a variety of strategies to promote self-monitoring, organization, study skills and test-taking techniques relative to math concepts and computation. Graded Pass/No Pass.

DSPS 077 — Writing/Reading Strategies

(2)

Hours: 36 lecture

Designed for students with disabilities but is open to all students who are enrolled in an academic course. Students learn a variety of multisensory approaches to writing and reading in order to improve their management of the written language. Graded Pass/No Pass.
