

EOPS - Adolfo Corral Student Award

Secel Montgomery

Submitted by the EOPS Department

It is with great pleasure to nominate Secel Montgomery for the Adolfo Corral Student Award. If you are lucky to know Secel you know that he is someone who is full of charisma and makes everyone around him feel welcomed and valued. What makes this award even more meaningful is Secel was also one of the many other students who had the privilege of being mentored by Adolfo Corral. Back in 2018-2019 Secel worked for the food pantry where he was responsible for unloading food trucks, restocking produce, and providing students with the resources they needed. Similar to Adolfo, Secel has a special talent when working with students, providing guidance, serving as an informational resource, and using his own lived experiences in a very unique way to connect with those around him. He is currently interning as a Clinical Service Technician at Mission Harbor Behavioral Health. Secel, your EOPS family and Adolfo are so proud of you and it has been a pleasure to see how much you have blossomed into the person you are now!
